HOAGLAND'S
NEW PATENT SHAFT COUPLING!
W. E. COOPER
HAS PURCHASED THE RIGHT FOR THIS County of the above Patent, and will hereafter use it in the construction of all the Vehicles manufactured at his extensive
Carriage Factory,
Corner of Second and Morrison Streets.
He respectfully refers to the following
CARD.
Having examined the New Patent Shaft Coupling, invented by H. R. Hoagland, we feel pleasure in informing the public that in our opinion it is the safest and best method of connecting shafts or tongues to all vehicles that has ever been used
It fastens without bolt or screw, and is therefore, easily and speedily separated. It rests on Gutta Percha so as to be entirely free from the rattling sound which so often disturbs restless horses. It is easily changed so that the shafts or tongue may be detached in an instant, and is convenient, safe and secure.
It is easy to change to this style of coupling any buggy or other vehicle now in use, and with small expense. We have come to the conclusion to use this new invention ourselves and recommend its use in all cases. We consider it far superior to the Brewster Patent, heretofore considered the best in use.

By Overland Telegraph.

DISPATCHES TO THE OREGONIAN

DATES TO JULY 25.

Dispatch from Cleveland.

CLEVELAND, July 25.—It is stated that powerful combinations of manufacturers have been formed at Cleveland, Youngstown and Elsinor for the purpose of testing the validity of the new Boiler Inspector law.

Cable Celebration

BOSTON, July 25.—Among gentlemen in this city intending to join in the Cable celebration at Duxbury on Tuesday, are Count De Tavernay, Charge de Affairs, Count De Furres, of the French Legation, Count Calebicens, Charge de Affairs of Italy, L. G. Watson, American Agent of the French Cable Company, Sir Jas. Hill and Viscount Parker, of England, with several officers of the steamship *Great Eastern*.

Chinese Immigration

WASHINGTON, July 25.—The Secretary of the Treasury is in receipt of letters from the Collector of Customs at New Orleans, covering a communication from William McCreary relative to the importing of Coolies into this country and asking instructions from the Department. He replies that McCreary misstates in his statement that the act of 1862 prohibiting American citizens from engaging in the Coolie trade has been abandoned January 16, 1867, and that a resolution passed in both Houses of Congress unanimously, expressing the abhorrence of the people of the United States for the Coolie trade. In conformity with this resolution, Secretary McCullough addressed the Collector of New Orleans a letter, 18th August, 1867, of which a copy is enclosed with added articles relating to trade between the United States and the Chinese Empire, which now awaits the action of the Emperor, and which reprobates any other than voluntary emigration, and agrees to make it a penal offence to take Chinese subjects from China without their free, voluntary consent. The Department of State, by a circular of the 17th January, 1867, addressed to Ministers and Consuls of the United States, directs that consulates in every port where Coolies may embark, shall be required to certify, after full examination, that such embarkation was not procured by fraud, but is made voluntarily. The circular requires that such Ministers and Consuls shall use all the authority, power and influence at their command toward preventing and discouraging the carrying on of the traffic referred to in any way. Such being the facts of the case, the latter are authorized and directed to use all vigilance in the suppression of this, as the Secretary says, new modification of the slave trade.

Tennessee Politics.

CHICAGO, July 25.—A *Republican* special says the Administration has publicly declared in favor of Stokes, for Governor of Tennessee.

Miscellaneous.

HAVANA, July 25.—The Spanish troops at Barcos captured and shot 60 rebels. Cholera is decreasing at Puerto Principe.

BOSTON, July 25.—Shortly after leaving the dock this morning the East Boston ferry boat *Lincoln* was discovered to be on fire. She was immediately put back and the passengers safely landed. The damage to the boat is estimated at $18,000 to $20,000.

MEMPHIS, July 25.—Mike Dougherty, a laborer at Elwood Cemetery, was shot and killed by another laborer while attempting to prevent the latter from shooting himself. The murderer fled

NEW YORK, July 25.—Charles Harney, of Tarrytown, competitor of A. T. Stewart for the purpose of securing the Hempstead Plains, Long Island, has commenced proceedings against the town authorities of Hempstead to prevent, if possible, the delivery of the deeds to Stewart.

Bark *Lyman Carr*, of Halifax, from Matanzos, for Queenstown, put into port to day. Her crew was sick with yellow fever. Captain Godfrey's wife and child died and were buried at sea. She lost three men at Matanzos and left three in the hospital.

BY ATLANTIC CABLE.

PARIS, July 23.—The *Moniteur* to-day says the party of the left already reveals germs of division, antagonism and rivalry between its members favoring Parliamentary Government and the Democrats.

De Chasseloup Laubat, in his inauguration speech as President of the Council, declared for liberty of speech because independence was associated perfectly with devotion to the Emperor.

Thiers, who attempted to lead the left party, has submitted a draft of an address to be issued in their name to the electors of France. The meeting, however, rejected the address, to the mortification of Thiers.

Ismael Pasha unexpectedly sailed to-day from Marseilles for Alexandria. There is a rumor that a rupture with the Sultan is the cause of his departure.

The French Assembly will not be reconvened until October, but the Senate will remain in session the greater part of August for the purpose of carrying out changes in the Constitution, of which fifty-two are suggested. A message from the Emperor to the Senate is shortly expected. Strong opposition is looked for by the conservatives, but it is thought it will finally be carried. The Ministers are hard at work in making up the draft of laws to be submitted to the Senate. The Emperor expressed a desire that the new laws shall be made more liberal even than was proposed in his late message.

Prince Napoleon intends delivering an important speech in the Senate on the subject of the new reform, which he regards as hardly full enough.

LISBON, July 23.—The mail steamer brings Buenos Ayers dates to the 20th of June. The news is unimportant. The rebellion in different portions of Uraguay is still continued. Monte viedo and the country adjacent was tranquil, as was the surrounding country in the Cordilleras. The Paraguayan war guard checked 2,000 Brazilians who were in pursuit, and then crossed the upper Parana without molestation.

LONDON, July 23.—A telegram from Bombay dated July 20th, has the following. It is reported that the King of Husard has pronounced against the Russian authority, and that all Turkistan is disturbed.

One of the provisions of the telegraph bill now before Parliament binds the post office department to collect and distribute messages by submarine cable.

A special to the *Herald* says a meeting of Irreconcilables was held yesterday.

LONDON, July 24.—Rio Janeiro dates to June 20th state that Lopez was in the mountains in a strong position with 500 men.

The revolution in Uraguay continued. The President had marched into the interior again to meet Carabelle, who was at the head of the insurgents.

CONSTANTINOPLE, July 23.—The Sultan has refused to receive the Viceroy of Egypt.

Kan Rischards Pasha and Ali Pasan Pasha have been appointed members of the Grand Council. Mustapha is a member of the council.

MADRID, July 23.—Much excitement is created by the Carlist agitation. Many arrests are daily made, and the Government hesitates whether to confine itself to civil measures to repress disorder or proclaim martial law.

MADRID, July 24.—The Government has issued a decree reviving and putting in force the martial law of 1821.

MADRID, July 25.—A fight took place near Ciudad Real between some Carlists under Lavargas and the national troops commanded by Gen Larrabet. The Carlists were defeated and dispersed, losing many killed and wounded. Agitation is general throughout the country, but no further hostilities are reported. Citizens here are excited over the news, but there are no indications of disorder.

ATHENS, July 25.—The Greek government has determined to suppress all foreign embassies except Constantinople. The army and navy are to be reduced.

MUNICH, July 24.—The Ministry and prominent members of the Bavarian Diet have pledged themselves to support a bill based on negotiations with Roster, the Bavarian Consul, the Chair recognizing as valid all legal bearings of marriages of Bavarians in the United States with the previous consent of the home Government, but the rights of Bavarian citizenship is not to be immediately accorded to the wife of an alien by reason of her marriage.

VIENNA, July 24.—In the Reichrath the Committee on the budget reported against abolishing the embassies at Rome and minor European capitals.

ALASKA.

From recent numbers of the Alaska *Times* we compile the following

The schooner *Sweepstakes* sailed yesterday for Cook's Inlet and the Cooper river country. There are several large tribes of Indians along Cooper river and Cook's Inlet who know but little of the Americans or their mode of trading. We admire enterprise and would like to see our enterprising merchants fit out frequent expeditions to trade and Americanize the Indians all over Alaska.

An order was received in this department from the Adjutant General's office in Washington, ordering that all men in the employ of the Government must be summarily discharged, excepting those it was impossible to get along without, and to have the work done by enlisted men, so long as it did not conflict with their other duties.

There are but two companies of soldiers in this city, and their numbers are gradually diminishing. They have to perform all the soldier's duties and do all the laboring work also; they have no time to themselves for rest, recreation or study, one day on guard duty, next day on fatigue: the eight hour system is not recognized, for they toil from 7-30 A. M., until 6. P. M.

The *Times* complains because people are imprisoned for debt at Sitka. The Mayor claims that he is acting under the authority of California statutes, but the *Times* informs him that the laws of California do not extend over Alaska.

WRECK OF THE SCHOONER LOUISA DOUNES.

The schooner *Louisa Dounes* cleared from this port on the 13th of last October, having on board Capt. Henry Hanson, Henry Thein and William Henderson. She was owned by Capt. Hanson and M. Manasse, and had a stock of goods adapted for the Indian trade.

She arrived at Hutchinoo on the night of the 22d and sailed from there on the 25th for the purpose of visiting the Kake Indians, and arrived there on the 28th.

Capt. Hanson had an Indian and a squaw with him for the purpose of interpreting and facilitating trade with the Indians along the coast. The squaw deserted her real lord and master and took up with one of the Kake tribe. The Sitka Indian could not survive the loss to his honor, so he suddenly seized a revolver, placed the muzzle to his breast, pulled the trigger and departed for the happy hunting ground. The schooner arrived at the village of Hounns on the 4th day of November, and found the place entirely deserted, the tribe dwelling there being at war with a neighboring tribe. About ten miles from Hounns they came across two canoes, which the chief sent to pilot the schooner into the harbor.

At New Harbor twenty canoes passed the schooner, stating they were on their way to Sitka. Passing around Barnoff on the 13th of November, Capt. Hanson and his two men experienced a very severe gale, and there being no harbor near at hand, or place of anchorage known, they tried to lay to with sails close-reefed.

The gale continued unabated and the schooner was at the mercy of the wind and waves, drifting westward, and laying on her beam ends. It was a trying moment for the schooner and the brave men on board, who expected every moment to see her go down, themselves with her. No effort was spared on the part of the Captain and his men to save the schooner. They were wholly occupied in bailing out the water with buckets.

On the 16th the fresh water gave out, the mainsail was torn to atoms and the jib carried away. Their situation at that period was very trying, but while they lived they had hopes, and used every expedient experiment that their position could suggest. On the 18th they were forced to cut away the mainmast, after having shipped so much water as moved the baisst. On the 22d they had drifted to Behring's Bay, but did not know at the time in what place they were. The schooner's boat was washed overboard, and the swell and surf being so heavy they found it utterly impossible to get ashore to procure fresh water, all they had on board in the shape of moisture was a keg of pickles. It is impossible to describe the position of these hardy men at this juncture, their forebodings, fears and hopes. On the 22d it rained a little, and they were enabled to get some fresh water, about two gallons, which proved a God send to them. On the same day the schooner drifted ashore, the crew all living and the cargo saved.

The schooner is now high and dry on the beach where she drifted. It is considered that it would cost more to get her off than she is worth. There is an Island about twelve miles long where she is beached. On the 27th they came across a deserted Indian village where they found three canoes. They immediately set about leaving the wreck, saving all they could and took the canoes, sailing and drifting along till 6th of December, when they came up with a tribe of Indians who went in for stealing all they had saved from the wreck, and on the 7th found about 200 Indians, named the Janitad tribe, with whom these adventurous men remained for six months and twenty-four days. After they had taken away everything valuable from the party they treated them very cruelly. These Indians subsist on seal, dried salmon and roots, and are wholly ignorant of the habits and manners of the whites. The principal chief of the tribe, with whom the men remained so long, brought them to Sitka. They arrived here last Wednesday looking as though they had longed to dissolve all connection with the Indian mode of living. Reports were current in this city for a considerable time back, that Capt. Hanson and his men were lost. Their appearance in the flesh, alive and well, was warmly greeted by a host of friends who have evinced every desire to show hospitality to the men who have undergone so much hardship and suffering.

SITKA.

To the outside world a description of Sitka as it is may not be uninteresting, by us who have lived here for a considerable time.

Sitka, or formerly known as New Archangel, is the principal city in Alaska. Heretofore but little was known of it prior to its occupation by the Americans. It was formerly the headquarters of the Russian American Fur Company. It is situated in 57 2 4 N., lon 135° 17' 10" W.

During the Crimean war it was visited by a combined squadron of French and English war vessels, but as no Russian naval force was to be found in the harbor, H. M. steamer *Brisk*, departed as she came, there being some contract previously entered into between the Government of Russia and that of England, that the rights of the Hudson Bay Company and the Russian American Fur Company should be protected.

The harbor of Sitka is safe and commodious, and except on rare occasions smooth as a millpond. The wharf, which has been in use for a long time, is getting dilapidated. It needs repairing very much. There is ample material and room to build an excellent wharf, so as to allow vessels coming to this port to come alongside and discharge their cargoes. It would require but a small outlay of capital on the part of the Government to build or add to the present wharf, and as it must be done sooner or later, we just mention it. Just so long as troops are here the Government would save more by having a good wharf built than it now costs to build scows, loading and then unloading them again, besides the extra allowance each ship is allowed for each day she is detained after a certain lapse of time, allowed to discharge her cargo. All this labor could be avoided, and we hope to see it soon remedied.

Near the wharf is the battery, very different in appearance and material from what it was when in the hands of the Russians. The same may be said of the garrison, the quarters do not look the same, having undergone the most impressing system of transformation.

The General's House is a source of marked observation. It can be seen many miles out at sea before entering our harbor. It is built on a rocky eminence about 80 feet above the level of the city. It commands a fine view of all the approaches by land and water and is a very commodious building. It was originally built for the accommodation of the Russian Governor, and no expense was spared to make it a Princely habitation.

The Custom House is also a fine building, and in its immediate vicinity there are several warehouses, and some commodious stores, several of them doing a large and profitable business.

The Greek Church, with its dome and spire of Oriental style, is a beautiful structure, and attracts considerable attention from strangers arriving here for the first time. The Military Hospital is also a large and roomy building, and like many of the other Russian houses, has an iron sheeted roof. The Medical Director has caused many excellent changes to be made in it and for comfort and cleanliness, it would do credit to any city on the coast.

Many new buildings are in process of erection. Roads and sidewalks are daily being made, and industry and enterprise seem visible all over our city, notwithstanding the dull times which exist here at present.

The citizens have formed a Civil Government for the settlement, collect taxes, and seem to give general satisfaction. Nominally a Civil Government, because the Military Law rules the Territory. The Commanding General seldom ever interferes except when solicited. This civil law saves him a vast amount of trouble and time, which he can devote to the management of his department.

There are at present three schools in this city, one American and two Russian, and they are well attended.

A newspaper has been started a few months ago, which is well patronized, not only in Alaska but all over this coast, and has many subscribers in the Atlantic States. The Lutheran denomination have a church here, but it is at present occupied by the Post Chaplain, Rev Mr. Raynor.

The Masonic Fraternity have a lodge, and a large number of members. We have two brewery s in operation and doing a paying business. The parade ground is beautifully graded and in front of it many of the officers have neat and convenient quarters.

A little beyond lies the Indian Market which is an institution of this city worthy of mention.

The Kaloshes, as the Sitka Indians are called, inhabit the coast between the Stekin and Chilcat country. During the summer months, a large number leave here and will not return until the approach of winter. There are about 1,000 of them at present in Sitka. They dwell in a continuous line of rude houses outside the Stockade. These houses are built with hewn logs, and have four or five steps approaching the entrance which is in most of them of a circular shape, and you have to enter with head and back stooped. They have a large fire in the center of the floor made of logs around which they sit in dozens smoking and singing, of which accomplishment they appear to take great delight. In the roof there is a large hole cut to let out the smoke. They have numerous apartments inside their cabins, something after the form of deck passengers' bunks in Tapscott's sailing vessels.

The Sitka Indians are considered to be very peaceable. They are by no means prepossessing and are noted for their dishonesty. Their dress consists of a blanket. If it is red it is the more valuable. And they black their faces very often. Some of them like red paint and use it largely. It would be difficult to describe the various spotted patches and stripes they employ to beautify their countenances, and but few of them wear caps or hats.

The squaws generally wear a pin of bone or silver stuck in their lower lip, but it is only those who are advanced in years who wear those emblems. They are noted for being very lazy. They live on salmon, b

Our Fairy Ring.

While Titans war with social love,
My own sweet wife and I,
We make Elysium in our love,
And let the world go by.
O never hearts beat half so light
With crowned Queen or King!
O never world was half so bright
As is our fairy ring,
Dear love!
Our hallowed fairy ring!

Our world of empire is not large,
But priceless wealth it holds;
A little heaven links barge to barge,
But what rich realm it folds!
And clasping all from outer strife,
Sits Love with folden wing,
A-brood o'er dearer life-on-life,
Within our fairy ring,
Dear love!
Our hallowed fairy ring

Thou knowest thy true love on mine,
And bravely bearest up!
Aye, mingling love's most precious wine
In life's most bitter cup!
And ever more the circling hours
New gifts of glory bring;
We live and love like happy flowers,
All in our fairy ring,
Dear love!
Our hallowed fairy ring.

We've known a many sorrows, Sweet!
We've wept a many tears,
And often trod with trembling feet
Our pilgrimage of years.
But when our sky grew dark and wild,
All closelier did we cling;
Clouds broke to beauty as you smiled,
Peace crowned our fairy ring,
Dear love!
Our hallowed fairy ring.

Scenes on a Holiday in Zanzibar.

A correspondent of the Boston *Journal* rites from Zanzibar:

Thursday, March, 25th, was a holiday here a sort of a cross between our Christmas and ourth of July; but I believe the natives look pon it as their Christmas. At sunset, preeding, they fired salutes from their fort, and n the evening had their vessels covered with hinese lanterns, making quite a pretty speocle. On the day, the slaves all received a present of a new cloth, and a happier ormore oyous set of beings I never saw. It is the ustoms with the Europeans here on this day o give their servants and "yaal boys" a goat o be killed and eaten; as this is the only day f all the year upon which they are allowed neat. This festival lasts three days, but the laves are only allowed one day for holiday. On the second day the Arabs and Banyans all on the King to pay their respects; upon he third the Europeans, which includes the Americans, attend the same ceremony. I alled on Good Friday, instead of Saturday, s I expected, in company with Captain Webb, he American Consul, his clerk and other gentlemen connected with the American houses. It is all a necessary farce, but it has to be gone through with twice a year. I am not sorry that it is not oftener, as it involves a blank suit and silk hat with the mercury at 95 degs.

On this occasion the formalities did not last 15 minutes. The King met us at the door, we entered before him, into a large room with marble floor, surrounded with arm chairs, which were the only furniture it contained. The King seated himself at the head, and was addressed by Consul Webb, after which servants placed two large chairs in front of each couple, and brought in large supplies of Arab sweetmeats and cakes, which were placed before us all. Of all refreshments, this was the most detestable. The sweetness was sickening. I followed the example of the rest of the party and only nibbled at some part of the bait. The King asked us why we did not eat, and received the excuse—which has always done good on all occasions—that we had just breakfasted. After this they brought in three little cup of coffee, which was very nice, only a good deal too strong. They followed a small bottle of Otto of Rose, a drop of which was placed on each of our hands, when permission was asked and given to retire. We backed from the throne, the King following us to the door, with a most gracious with a hearty wave of the

The Lazy Man

The lazy man is the "Big Contributor," is almost always good for all. He never flies into a passion. He might, if Hercules one, if that were possible; but the idea of his flying into anything is preposterous.

Who ever heard of a lazy man breaking into a bank, where a crow-bar had to be used, or drilling into a safe? Nobody. Not that he might not covet his neighbor's goods contained therein, but the horror of handling a crowbar and drills would always deter him from actually committing burglary. He never runs away with his neighbor's wife, simply on account of the horror he has of running. If he is ever known to run, it is to—run to seed.

He rarely lies about his neighbors, for it would be too much exertion; but he can lie at a bar-room all day.

He is of inestimable service to a billiard saloon, keeping the chairs warm and watching the game, for few would care to play where there are no spectators. The fact that he does this without pay, day in and day out, shows the unselfishness of his nature. What an industrious man, who contributes his time worth something, would want pay for, the lazy man generally does for nothing, showing a desire to from mercenary motives that should go far to his credit.

The lazy man never gets up revolutions, insurrections, or other popular excitements, and don't make a nuisance of himself by tramping around the country making incendiary speeches to promote public discontent.

In his own neighborhood he is never a busybody in other people's affairs, for the very idea of being a busybody at anything would drive him out of his head. By the way, if he ever got out of his head you would have to drive him out, for he wouldn't have energy enough to go out of his own accord.

No lazy man ever run mad. If he went crazy, it was because he couldn't go anywhere else without walking.

Lazy men don't disturb the quiet of peaceful neighbors by putting up factories, furnaces and other abominations.

Governor Hayes, of Ohio, in his speech accepting the nomination, at the Columbus Convention, made a searching criticism of the acts of the late Democratic Legislature of Ohio. He placed the Republican party, so far as he could, on the platform of legislative retrenchment and reform, and that the Convention indorsed his views of this important question is shown by the resolution adopted rebuking the profligate expenditures by the Legislature. Governor Hayes in his remarks showed that under the provisions of the constitution of Ohio, which complete one legislative session in two years, the Democratic members, held two sessions in the same year, and three sessions in their term of two years. They were in session two hundred and sixty days—longer than was ever before known in Ohio, and at the expense of $250,624 10—

---

in which was placed sawdust moistened with sulphuric acid that had previously been diluted with forty times its bulk of water. On account of its porosity, sawdust retains the acid very perfectly, and presents a large surface for the absorbtion of ammonia and other gases. From time to time the old sawdust may be removed, and a fresh quantity prepared in the same way, substituted. The old sawdust scattered over grass land in the mid last of, or just after a shower, will show quickly its powerful fertilizing qualities.

Arrivals and Departures of Mails to and from Portland

SOUTHERN MAILS

FACTS WORTH KNOWING!

IF YOU WANT TO BUY A FARM YOU EXAMINE the soil, the lay, the locality, the title and the price.

If you want to insure your life examine the workings of the Company before you invest

If you examine you will

INSURE IN THE NEW ENGLAND MUTUAL LIFE INSURANCE COMPANY!

WHY?

BECAUSE you get your first DIVIDEND to HELP PAY YOUR SECOND PREMIUM You do not have to wait 3 or 4 years for the distributions.

BECAUSE we have NO STOCKHOLDERS to draw from 12 to 25 per cent on imaginary CAPITAL STOCK (personal promises to pay) amounting from $30,000 to $50,000 annually

Because the NEW ENGLAND is a Mutual and is a Home Company in all our broad and beautiful country; an American Institution—the first one formed on the PURELY MUTUAL plan on this Continent.

BESIDES it is the only Company offering you the protection of the Massachusetts Law.

For example: A person aged 35, insures for $1,000, pays $25 50, say on the 1st July, 1869. Were he to die on the 4th July, 1871, 2 years and 3 days after, his policy would be paid. Thus:

Say amount Policy is	$1,000 00
Deduct two annual payments he has not paid, $25 50 each, and interest	54 02
The family would receive	945 38

No Snap Judgment here. This is what we call EQUITABLE and MUTUAL

Five annual payments keep the Policy in force 10 years and 56 days.

Policies on which Note has been given for one-third of the Premiums.

Five payments will continue in force nearly five years after payments have ceased

On ENDOWMENT POLICY the time is prolonged in proportion to the amount paid.

Take the statements of no solicitor for other Companies of our beneficent workings, but call and satisfy yourselves We will be pleased at all time to communicate every information

THE

New England Mutual

Is the only Company on this Coast that *offers the above advantages to Policy-Holders.*

The above examples are facts that are incontrovertible, and will be proven to the satisfaction of all persons calling on our agents

WOULD RESPECTFULLY INFORM HIS FORMER patrons and all who desire the professional services of a Hygeian, Physician, that he has just returned from the best and most extensive Course in the during which time he has visited and examined all the Water Cures in the Eastern States, and the various Hygeian Establishments of New York City. He will be at home with this new experience to do more thoroughly prepared than ever before to treat all the diseases that mankind may justly claim will be cured by this rational form of medication

In January last DR SMITH purchased the extensive lot corner Larkin and California streets, with the buildings thereon, which he has fitted up at great expense, for the more immediate COMFORT of PATIENTS and BOARDERS, with a greater variety of Baths for the cure of DISEASE as well as pleasure, at both, than is to be found in any Water Cure in the United States

HYGEIAN HOME is the only Hygeian Water Cure in San Francisco, and by far the most extensive and complete Hygienic Institute on the Pacific Coast

And we refer to Ministers, Teachers, Lawyers, Miners, Merchants, Mechanics, Farmers and all worthy persons, especially those who have tried drugs faithfully without being restored, and who are still desirous of regaining health by this rational system of medicine, the hospitalities of our Hygienic Home and Cure. Young men who have become debilitated or lost their health by excessive toil, exposure or enervating habits, or characters, through ignorance of physical laws may with us find more of the encouragement they need, and means that will restore them to health, than elsewhere in California

There is not one man in a city suffering from Rheumatism, Neuralgia Gout, or Diseased Liver, Chills and Fever, Dyspepsia, Dropsy Secondary Diseases, Spermatorrhea or Seminal Weakness Impotency or Nervous Debility, Weak or Inflamed Eyes, Bronchical and Catarrhal Affections, Disease of the Heart, Lungs, Kidneys, Constipation, Paralysis, Scrofula, Piles, Inflammation of the Bowels, Chronic and Acute Diarrhea, Stiff Joints Oak Poisoning Weak Backs Hip Disease, Salt Rheum and many other Diseases common to Men and Women, that cannot be permanently cured in from two to six weeks by Water Cure and Hygienic treatment Not only will they get cured, but they can learn how to keep well when they go to their mountain homes their mines, their farms, their stores, and all this for one half what it will cost to take drugs

Terms $20, by the single week or $60 for four weeks, Board Room and Treatment (in all ordinary cases).

N. B.—All suffering from cutaneous diseases are treated in separate baths, which are never used by persons bathing for cleanliness The greatest care and neatness is observed in this respect No contagious diseases, such as Small Pox and Ship Fever treated in the Institution.

We have a separate Medical Department for Ladies, which is attended by a thoroughly competent woman, while the private residence of DR SMITH, which is connected with the Home, is chiefly devoted to the accommodation of ladies desiring Hygienic medical treatment

We have for the past ten years made the treatment of female diseases a specialty, and have treated a great number of females, both in the Institute and in their private residences in this city, Sacramento and Oakland, who were suffering from Displacements, Prolapsus Uteri, Uterine Hemorrhage, Sterility, Curvatures of the Spine, Inflammations, Congestions, and ALL NERVOUS DISEASES, together with diseases common to all.

The ease and rapidity with which the varied diseases and conditions above mentioned have been overcome, especially in the vicinity of the Bay, fully warrant us in declaring that there is not one female in a hundred who is thus afflicted but that can be made well and happy in from three to six weeks by thorough Hydropathic and Hygienic treatment at our Cure. From all who have come to us and been treated, we have yet to learn a single regret from Husband or Wife of the time, means or trouble so expended in HYGIENIC MEDICATION, for they not only get well, but learn how to keep well

Terms for Ladies, $20 a week, or $100 for six weeks (Board Room and treatment).

DR SMITH gives FREE Lectures to his patients every Wednesday evening, and also Lectures before the Ladies Hygienic Society the first Wednesday in each month

BARLOW J SMITH, M D.,
Proprietor and Consulting Physician.

Attending Physicians. jun9d2m4w4t

Proposals for Boating Stone.

SEALED PROPOSALS WILL BE RECEIVED AT the Office of the Superintendent of Construction of the U S. Custom House at Portland, Oregon, until 12 o'clock M., on the 27th day of July, 1869, for Boating 750 cubic yards of Stone from the quarries opposite Astoria to the wharf at Portland.

The Department will load the boat at the quarries and discharge at the wharf at Portland and pay wharfage

Proposals will be made by the cubic yard of Stone, inclusive of all freight, measurement to be made by the Superintendent on delivery, and 10 per cent. of all payments retained until completion of contract. Payments in U S. Currency The delivery of materials will begin immediately on the signing of contract and continue in such quantities and at such times as may be directed.

The Department reserves the right to reject any or all proposals All bids must be accompanied by a bond of two responsible persons in the sum of $2,000 as security that the bidder will accept and perform the contract if awarded to him The sufficiency of the security to be certified to by the U. S. District Judge.

Proposals should be endorsed, "Proposals for Boating Stone," and addressed to E. St John, Superintendent U. S. Custom House and Postoffice, Portland, Oregon

jy12dtd E. ST. JOHN, Superintendent.

IN THE CIRCUIT COURT OF THE STATE OF OREgon for Multnomah county.—S. N. Arrigoni and Elisabeth D. L. Arrigoni, Plaintiffs, vs James P. O. Lowndsale, Millard O Lowndsale, by James P. O. Lowndsale, his general guardian, Ruth A Lowndsale, by John A. Blanchard, her general guardian, Wm K Cooper and Mary K. Cooper, his wife, John R Lamb and Emma S. Lamb, his wife, and Ida Squires, by Wm. E Cooper, her general guardian. To Ida Squires, one of said defendants. In the name of the State of Oregon, you are hereby required to appear and answer the complaint filed against you in the above entitled suit, by the first day of the next term of said court which shall convene six weeks after the first publication of this summons, to-wit: on the 8th day of November, 1869; and if you fail to answer the plaintiff's will take judgment against you, and a decree determining your claim to that real estate in the city of Portland, Oregon, known as lots (1) one, (2) two (7) seven and (8) eight in block (249) two hundred and forty-nine, and excluding you from any estate or interest therein, and quieting plaintiff's title thereto, and for general relief prayed for in the complaint

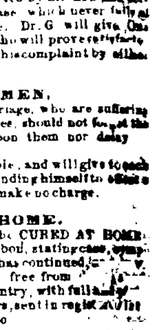
TO THE UNFORTUNATE.

NEW REMEDIES, NEW REMEDIES

Dr. Gibbon's Dispensary,



623 KEARNEY STREET, NEAR COMMERCIAL, San Francisco. Established in 1854, for the treatment of Sexual and Seminal Diseases, such as Gonorrhœa, Gleet, Stricture, Syphilis in all its forms, Seminal Weakness, Impotency, etc. Skin Diseases (of years standing) and Ulcerated Legs successfully treated

Horrible Diseases.

How many thousands of persons, both male and female, are there who are suffering out a miserable existence from the effects of secret indulgences, or from virus absorbed into the system Look at their pallid, emaciated and disfigured faces and their broken-down constitutions, disqualifying them for the happiness of marriage, or the enjoyment of life. In this horrid situation these sad thousands suffer until death closes the scene Let parents, guardians, friends, attend to those who are suffering with any of these horrible life-destroying maladies—that they are cared for and cured before it be too late. Send them immediately to Doctor Gibbon, a physician who has made private disease his especial study for years, and who is certain to cure the most inveterate cases without mercury or any injurious drugs. It is important to those who are afflicted, or to those who are interested in the welfare of their friends, to be careful of the many pretended doctors who infest all cities, publishing their skill in curing all diseases in a few days, imposing upon the public by using the names of eminent physicians from Europe and other places Be there fore careful and make strict inquiry, or you may fall into the hands of those charlatans.

Seminal Weakness.

Seminal Emissions, the consequence of self-abuse The solitary vice, or depraved sexual indulgence, is practised by the youth of both sexes to an almost unlimited extent, producing, with unerring certainty, the following train of morbid symptoms, unless combatted by scientific and local measures viz Sallow countenance dark spots under the eyes, pain in the head, ringing in the ears, noise like the rustling of leaves and rolling of chariots, universal pain about the loins, weakness of the limbs, confused vision blunted intellect, loss of confidence, diffidence in approaching strangers a dislike to form new acquaintances, a disposition to shun society loss of memory, hectic flushes; pimples and various eruptions about the face, furred tongue, fetid breath, cough, consumption, night sweats, monomania and frequent insanity If relief be not obtained, should apply immediately either in person or by letter, and have a cure effected by his new and scientific mode of treating this disease which never fails of effecting a quick and radical cure. Dr. G will give One Hundred Dollars to any person who will prove conclusively to him that he was cured of his complaint by either of the San Francisco quacks

MARRIED MEN,

Or those who contemplate marriage, who are suffering under any of these fearful maladies, should not fail of the sacred responsibility resting upon them nor delay obtaining immediate relief.

DOCTOR GIBBON is responsible, and will give to each patient a written instrument, binding himself to effect a radical and permanent cure or make no charge.

CURED AT HOME.

Persons at a distance may be CURED AT HOME by addressing a letter to Dr. Gibbon, stating case, symptoms, length of time the disease has continued, &c. Medicines promptly forwarded, free from curiosity, to any part of the country, with full and plain directions for use, for Ten Dollars, sent in registered letter or through Wells, Fargo & Co

Caution to the Unfortunate.

Beware of the San Francisco quacks and pretenders who, with bogus sworn-to certificates, dupe the unwary. Some of the self-styled doctors, whose names are to be found in the daily and weekly newspapers of San Francisco and other places, are tradesmen, and too lazy to work at their trades. Some are tinsmiths, shoemakers, newspaper carriers, intelligence office keepers, etc. Look over the San Francisco Directory, and you will not find their Medical Institutes in it, but you will find their former occupations in it. Look at the Directory for 1862 and 1863 The only way to avoid detection is to make enquiry—it will cost you nothing, and may save you many regrets; for, as advertising physicians, in eight cases out of ten, are bogus, there is no safety in trusting any of them until you know who and what they are. Dr. Gibbon does not deceive people by exhibiting bogus titles, certificates, pretended gift letters, etc. Dr Gibbon will satisfy persons who may call at his office of his ability to treat diseases that he proposes to cure

Address DR. J. F. GIBBON, 623 Kearney street, corner Commercial, (Private Entrance on Commercial) San Francisco. Post Office Box 252

REMEMBER TO PUT BOX 252 ON THE LETTER for Consultations FREE.

☞ Correspondents will please inform DR. GIBBON that they read his advertisement in the *Daily Oregonian*

THE APPETITE FOR TOBACCO DESTROYED!

LEAVE OFF SMOKING AND CHEWING THE POISONOUS WEED, TOBACCO

ORTON'S PREPARATION!

ESTABLISHED 1866.

One box of Orton's Preparation is warranted to destroy the appetite for Tobacco, in any person, as matter how strong the habit may be. *If it fails it will be refunded any case the money will be safe and harmless to all cases.* It is almost impossible to break of the use of Tobacco by the mere exercise of the will Some thing is needed to assist nature in overcoming a bad habit but in overcoming a habit, there is not the least trouble. *Hundreds* have used it who are willing to bear witness to the fact, that Orton's Preparation completely destroys the appetite for Tobacco, and from any desire for it, as before he commenced its use. The Preparation acts *directly upon the same glands* and secretions affected by Tobacco, and through these upon the blood, thoroughly cleaning the poison of Tobacco from the system and thus allaying the unnatural cravings for Tobacco. *No more hankering for Tobacco after using Orton's Preparation. Recollect it is warranted*

The time taken to allay all desire for Tobacco by the use of the Preparation varies *slightly* in different persons, the *average* time being about *Five* days. Some have no desire for Tobacco whatever after using the Preparation *Two* days.

The *Health* and *Purse* of every Tobacco user in the country calls loudly, ABANDON THE USE OF TOBACCO.

RECOMMENDATIONS

The following are a few selected from the multitudes of recommendations in our possession

We, the undersigned, hereby certify that we have used Orton's Preparation for the purpose of destroying the appetite for Tobacco, and can assure those who are suffering from this habit that Orton's Preparation will certainly destroy the appetite for Tobacco *quickly and permanently*, and without any bad effect upon the health, and without creating an appetite *either for the Preparation or any substitute.*

THE PUFFERS PUFFED.—The following appears as a communication in the Vancouver *Recorder*. So far as it goes, it is very well, but it don't get right down to the pith and marrow of the matter, as the writer might have gone. The internal consciousness of the position of a local on a city paper, can never be fully pictured within the limits of so brief an article. Some day when we have time and strength to do it, we are going after scalps on this same war-path.

"No class of public men have their services to society so poorly recognized as local editors, and the philanthropic society which first undertakes to ameliorate their condition, will gain for itself the everlasting thanks of the world of letters, as well as a home second only to that already attained by the 'Society for the Prevention of Cruelty to Animals.' If there is any man for whom the killing order of kindness is specially reserved, it is the gentleman who 'does the locals' for a city paper. We have no sympathy for the 'heavy editor' wrapped in an impenetrable mail of self sufficiency during his administration, he retires on a competency after a brief period leaving the poor 'locals' in more straitened circumstances, if such a thing were possible, than when he first found him. Another succeeds, and his services to his party are soon rewarded by a commission as whisky inspector or something else equally honorable and lucrative. Not so locale," to whose labors the seven tasks of Hercules were as ordinary chores, eke out a miserable subsistence from the scanty pittance allowed him—scarcely enough to provide him with the commonest food and plainest clothing, much less support a family. It is quite true that the perquisites of his office, in one sense, are very large. No theatrical, circus or minstrel company that has an eye to busin but present the local with a complimentary ticket, with the tacit understanding, in their minds as strong as a contract in writing, that he is to pay for it with a complimentary notice of the entertainment. Who can appreciate an act, however kind it may seem, when it is done for an ulterior purpose? Thus is a constant damper kept on the Local's pleasure, for which the saving of the admission fee never repays him. If this system of bribery were carried on as extensively in other branches of business, some practical benefit to the reporter might result from it. The day may come when the Local's opinion upon the merits of a brand of flour will be the result of a test of a barrel which the merchant sent to his family for trial. The "Coming Local" will demand this. The Press can never fulfill the glorious mission for which Providence designed it until the flat of public opinion shall find its most truthful expression through the medium of the Local's report; when the utmost confidence shall be reposed in the dignified gravedness of his decisions.

Each of the three Portland dailies has a local reporter, and we will hazard the assertion that in proportion to the amount of labor performed they are the poorest compensated and "best abused" quarter of a dozen men in that city. Overwork has left visible traces in face and figure, and the emaciated frame unmistakably points to the fact that "the sword is outwearing the sheath," and their reward, if much longer deferred, must be of a posthumous character.

The above disconnected thoughts are penned in no spirit of levity, but from a sincere desire to see justice done to an all-deserving but sadly-neglected fraction of the *genus homo*."

NOTE OF EXPLANATION.—The subjoined note from Mr Bowman clears up the charge of negligence which we laid against him as an officer of the Regatta Club. The report mentioned, however, did not come to hand, nor can we learn by any means what became of it.

PORTLAND, Oregon, July 26, 1869.

LOCAL EDITOR OF THE OREGONIAN:

SIR—I was very much surprised as well as chagrined upon noticing in the OREGONIAN of this morning an account of the Regatta of the Portland Yacht Club, which was held on Saturday last, to which was attached a reprimand on me charging me with negligence, &c., in not furnishing you with an official report of the same. Allow me to state through the columns of your paper that it was my business to furnish you such a report for publication, and I did it. Such a report was made out by me and my official signature attached thereto, and in the presence of three persons I laid the same on your desk. You have (unintentionally, probably) done me great injustice, and cast reflections upon the performance of duties devolving upon the office which I hold in the Portland Yacht Club, and by making the public acquainted with the facts in regard to this matter, you will oblige,

Respectfully, GEO. F. BOWMAN, Sec'y P. Y. C.

ANNUAL EXAMINATION.—The annual examination at the Portland Academy and Female Seminary commenced Friday afternoon. Classes were examined in Ovid, [illegible]r, Geography and Arithmetic. The scholars acquitted themselves, with very few exceptions, with honor to themselves, and gave evidence of thorough and careful training on the part of the teachers. The examination will be resumed this morning at 9 o'clock, and will conclude to-day. The exercises of the graduating class will take place this evening at the M. E. Church, to be followed by an address by Rev. P. S. Knight. All are invited to attend. To-morrow evening the pupils will give their annual exhibition at the Church, consisting of dialogues, recitations, music, calisthenics, &c. An admission fee of fifty cents will be charged to-morrow evening at the exhibition. The exercises in calisthenics will be well worth the price of admission.

U. S. DISTRICT COURT—DEADY, JUDGE.—Proceedings of yesterday:

Eugene A. Cronin admitted to the bar of this court.

In the matter of R. C. Cochran—in bankruptcy—hearing on petition for discharge continued.

United States vs. steamer *Ann*—action to recover penalties for running without license—by stipulation, judgment entered for $3,500 and costs, and petition for remission by claimant filed.

United States vs. Fred Sargeant—indictment for smuggling—cause continued.

United States vs. Doreille Brown—indictment for counterfeiting—cause continued.

United States vs. Joseph Hess—indictment for illicit distilling—cause continued.

Adjourned to Monday next.

LEWIS RIVER GOLD MINES.—We learn from Vancouver that a great excitement is growing up at that place about the lately discovered mines on the head waters of Lewis river. Several of those who went out last week have returned to Vancouver, reporting that they found prospects paying all the way from one to fifty cents to the pan. They have gone back with better outfits, others joining them. A party left Sunday and another yesterday morning. Still others are preparing to go. Everybody is getting more or less excited, and, judging from the present prospects, several hundred men will be in the new mines within a week. They are distant about fifty miles from Vancouver. Several parties are preparing to open out the old Simcoe trail, by which the adventurers travel.

THE CIRCUS IN DIFFICULTY.—The Great Eastern and Royal Eng[illegible] Circus did not perform last Saturday evening. The proprietor had started in to show without procuring the necessary licenses—local and national. The sheriff came down on him, and Mr. Lee paid for his licenses. Then the Revenue Assessor and Collector came down on him for the lawful per cent. of his gross receipts for 1868, and Mr. Lee refusing to pay, the Marshal took charge of his horses. Of course, under such circumstances, a circus performance was out of the question. Lee couldn't ride *without* horses and the Revenue officers and Marshal couldn't ride *with* the horses; so the gaping multitude who had come to see the show went home disappointed.

WASCO COUNTY FAIR.—The agricultural fair for Wasco county will begin on the 15th of September and continue for four days. Larger premiums are offered than for former years. The first two days will be devoted to exhibiting articles of produce, manufacture, stock, etc., and the last two days to trials of speed and bottom—agricultural horse trots. The *Mountaineer* says: "From what we can learn it is intended that this year the society will make a larger showing of the productions of this region than ever before. We earnestly hope that such may be the case, and that the Fair will be one worthy of the name and of the inhabitants of Wasco and adjacent counties."

FOR THE BOHEMIA MINES.—The Eugene *Guard* says: "Several gentlemen left here yesterday for Bohemia, among whom was Messrs. Knott and Ladd, of Portland, and R. Handley, of this county. Mr. Knott informs us that they are going out for the purpose of surveying out a wagon road, from some point on the military road, to the mines. If they can get a road to the mines they are going to take a five-stamp mill in this season. They seem to think that the mines are very rich, and with such enterprising gentlemen as those who have taken the matter in hand, we have no doubt but the work will be pushed rapidly ahead. Success to them."

THE REGATTA.—Mr. Bowman, Secretary of the Regatta Club, furnished us last evening with a duplicate of the report which was mysteriously spirited from our desk some time between Saturday evening and Sunday morning. We had already published the material facts about the regatta and we, therefore, will not publish the report. The *Elsie* beat her competitors as follows: the *Mountain Belle*, 9 seconds; the *Nettie* 8:48½; *Turtle*, 16:53½; *Fleetwing*, 15,38½.

HANDED OFF BY FIRE.—The party which went out from Vancouver to explore the Klamath and Lewis river mountains for a pass practicable for a railroad, met with fire in the mountains between the Cowlitz and Lewis rivers, and was obliged to abandon the expedition and return home. As far as the party went, the route was considered altogether practicable. The explorers represent that they passed through several tracts of good farming land not yet claimed.

ESPECIALLY FAVORED.—A gentleman who came up from Astoria on Saturday says that at Astoria the people are enjoying a perfectly clear atmosphpere. The strong [illegible] blowing inland for a few days, blew all the smoke up the Columbia, leaving the people near the coast the felicity of breathing pure air. Just at present we of the interior are taking an unpleasant amount of creosote with our oxygen and nitrogen—a most villainous compound.

WORK RESUMED.—The West Side Railroad Co. resumed their work of grading yesterday, with about fifty men. This force is to be increased as soon as laborers can be procured. We learn from Mr. Gaston that arrangements have been effected to procure the rails for twenty miles of road whenever the company shall grade and lay the ties for that distance.

SOUTH WIND.—Late yesterday afternoon, a fresh breeze sprang up from the South, presaging rain. If the prayers of the wicked could avail anything, the South wind would howl for about forty days and forty nights, or till we should have rain enough to put out every spark of fire on every mountain and in every plain on the Pacific slope.

STEAMBOAT LOCKS AT OREGON CITY.—The P. T. Company have this week begun work upon their great enterprise of constructing locks around the falls at Oregon City. It is their intention to employ as many men at once as can be worked to advantage—from one hundred to one hundred and fifty—and to continue the work to completion.

ARRIVED.—The bark *H[illegible] Almy* arrived from San Francisco on Sunday, and is discharging her cargo at Couch & Flander's dock.

EXTRA COAT OF SILVER!

[illegible] Electro Plating greatly increases the old way of plating. The great advantage will be readily seen, as spoons and forks always wear through on those exposed points, while the plate is yet good on other parts of the article. This new process [illegible] THREE TIMES TO THE DURABILITY of goods so plated.

Knives, forks and spoons stamped "1847 ROGERS BROTHERS A1 XII," are Electro Plate by the new Patented Process.

We have now been before the public since 1847, manufacturing ELECTRO PLATED GOODS, which have stood the most severe tests of wear in hotels, steamers and private families, and have given universal satisfaction, supplying, as it does, all of the advantages of silver in durability and beauty. We wish to call particular attention to the hardness and firmness of our White Metal, which exceeds anything of the kind made in this country. All goods plated on this metal bear our trade mark, and the plating is warranted THREE TIMES THE USUAL THICKNESS.

WHITE'S NEW MAP
OF
WASHINGTON TERRITORY!
WEST OF THE CASCADES.

OLYMPIA, W. T., May 24, 1869.

THE UNDERSIGNED WOULD RESPECTFULLY solicit subscriptions to enable them to publish a MAP OF WASHINGTON TERRITORY West of the Cascades, compiled from the United States Surveys and the best and latest authorities. The scale is four miles to an inch, making the map sixty-seven by fifty one inches. In addition to the topography of the country, the map shows the extent of the Surveys, the Indian and Government Reserves, the Prairie lands, the soundings of the principal harbors, and many other particulars not given in previous maps. THE SUBSCRIPTION PRICE IS TEN DOLLARS; RETAIL PRICE, TWELVE DOLLARS. The map will be furnished, colored, mounted and complete, by August 1st. It was forwarded in March to the establishment of Colton & Co., New York, for publication.

Subscriptions may be forwarded to Joseph Cushman, Receiver Land Office, Olympia; W. C. Painter, Walla Walla; A. G. Cook, Vancouver, S. J. McCormick, Portland, who will receipt.

We call attention to the following endorsements:

ENDORSEMENTS.

OLYMPIA, W. T., March 27, 1869.

C. A. WHITE, Esq.—*Dear Sir*: Having examined your original map, embracing that portion of Washington Territory west of the Cascade Range, I desire to add my testimony to its value. Having been engaged for a number of years in the surveys from Cape Flattery to the Head of Puget Sound, I have examined this portion of your map more critically than others, and I take pleasure in vouching for its generale correctness.

This map will fill a want that has long been felt, not only among the residents of this Territory, but others, who are desirous of obtaining information of this portion of the "Far West," and I trust that we shall soon see it in a form suitable for general distribution.

JAS. S. LAWSON,
Asst. U. S. C. S.

We endorse the above well opinion of Jas. S. Lawson, Esq., and will add that Mr. Chas. A. White is a practical surveyor, and has had access to the township maps in the two Land offices in this Territory, as also the Coast Survey charts; and we can vouch for his map of Washington Territory, west of the Cascade Range of Mountains, as being correct, and the only good map of the same territory that has been made.

NOTICE.

WE TAKE PLEASURE IN CALLING the attention of dealers to a valuable P. [illegible] Co. [illegible] to Plated [illegible] and Forks [illegible] which we offer to the trade at

EXTRA COAT OF SILVER!

[illegible] Electro Plating greatly increases the old way of plating. The great advantage will be readily seen, as spoons and forks always wear through on those exposed points, while the plate is yet good on other parts of the article. This new process [illegible] THREE TIMES TO THE DURABILITY of goods so plated.

Knives, forks and spoons stamped "1847 ROGERS BROTHERS A1 XII," are Electro Plate by the new Patented Process.

We have now been before the public since 1847, manufacturing ELECTRO PLATED GOODS, which have stood the most severe tests of wear in hotels, steamers and private families, and have given universal satisfaction, supplying, as it does, all of the advantages of silver in durability and beauty. We wish to call particular attention to the hardness and firmness of our White Metal, which exceeds anything of the kind made in this country. All goods plated on this metal bear our trade mark, and the plating is warranted THREE TIMES THE USUAL THICKNESS.

WHITE'S NEW MAP
OF
WASHINGTON TERRITORY!
WEST OF THE CASCADES.

OLYMPIA, W. T., May 24, 1869.

THE UNDERSIGNED WOULD RESPECTFULLY solicit subscriptions to enable them to publish a MAP OF WASHINGTON TERRITORY West of the Cascades, compiled from the United States Surveys and the best and latest authorities. The scale is four miles to an inch, making the map sixty-seven by fifty one inches. In addition to the topography of the country, the map shows the extent of the Surveys, the Indian and Government Reserves, the Prairie lands, the soundings of the principal harbors, and many other particulars not given in previous maps. THE SUBSCRIPTION PRICE IS TEN DOLLARS; RETAIL PRICE, TWELVE DOLLARS. The map will be furnished, colored, mounted and complete, by August 1st. It was forwarded in March to the establishment of Colton & Co., New York, for publication.

Subscriptions may be forwarded to Joseph Cushman, Receiver Land Office, Olympia; W. C. Painter, Walla Walla; A. G. Cook, Vancouver, S. J. McCormick, Portland, who will receipt.

We call attention to the following endorsements:
HAZARD STEVENS,
CHAS. A. WHITE.

NATIONAL
LIFE INSURANCE COMPANY,
OF THE
UNITED STATES OF AMERICA,
Washington, D.C.

CHARTERED BY SPECIAL ACT OF CONGRESS!

APPROVED JULY 25, 1868.

CASH CAPITAL,
$1,000,000.

OFFICERS:

CLARENCE H. CLARK, Philadelphia, President.
JAY COOKE, Chairman Finance & Executive Committee.
HENRY D. COOKE, Washington, Vice President.
EMERSON W. PEET, Philadelphia, Secretary & Actuary.
E. S. TURNER, Washington, Assistant Secretary.
FRANCIS G. SMITH, M. D., Medical Director.
J. EWING MEARS, M. D., Assistant Medical Director.

THE ATTENTION OF PERSONS CONTEMPLATING Insuring their lives, or increasing the amount of insurance they already have, is called to the special advantages offered by the NATIONAL LIFE INSURANCE COMPANY.

NO MONEY SENT OUT OF THE STATE.

ALL PREMIUMS RECEIVED INVESTED IN THE STATE.

THE ADVANTAGES OFFERED ARE:

It is a National Company, chartered by special Act of Congress, 1868.
It has a Paid-up Capital of $1,000,000.
It offers Low Rates of Premium.
It furnishes Larger Insurance than other Companies for the same money.
It is Definite and Certain in its Terms.
It is a Home Company in every Locality.
Its Policies are Exempt from Attachment.
There are no Unnecessary Restrictions in the Policies.
Every Policy is Non-forfeitable.
Policies may be taken which Pay to the Insured their Full Amount and Return all the Premiums, so that the Insurance costs Only the Interest on the Annual Payments.
Policies may be taken that will Pay to the Insured, after a certain number of years, During Life, an Annual Income of One-Tenth the amount named in the Policy.
No Extra Rate is charged for Risks upon the Lives of Females.
Insures Not to Pay Dividends, but at so low a cost that dividends will be impossible.

Its Policies are Negotiable.

By the Charter of the Company, certificates of obligations will be issued, agreeing to purchase its Policies at their value which, when accompanied by the Policy duly assigned or transferred, are negotiable, and may be used as collateral security, in making loans from the Company or from other parties.

The Hon. Jno. E. Sandford, Insurance Commissioner of Massachusetts, in his Report for 1868, speaking of Dividends in Life Insurance Companies, says: "The sooner such guarantees cease to be made, and such expectations created, the sooner Life Insurance will come to rest on its true motive, and men insure their lives for security, and not for dividends. The best and most popular companies will then be those that promise only equity, and render all that they promise, and furnish the best security, with the most upright and judicious management."

"By the Stock plan, the full cash effect of the Premium is immediately accrued to the Insured, the Company taking ALL the risk. By the Mutual plan, the full value in Insurance of the Premium paid, is not secured to the Policy-holder, who takes a portion of the risk himself."

G. VENARD,
CHARTRES COFFEE!
Manufactory Established in June, 1851.
STEAM POWER, NOS. 625 AND 627 FRONT ST.

HAS CONSTANTLY ON HAND GROUND AND ROASTED COFFEE, GREEN COFFEE of the best quality—CREAM OF TARTAR and SPICES of all sorts.
The undersigned, who has always enjoyed public confidence for the superior quality of his Coffee, has nothing to justify the good name so justly bestowed by his numerous patrons, the sale of which daily increases. The acknowledged superiority of his merchandise, which is sold here, and in the markets of the Pacific, at relatively higher prices, and the rapidity of sales, are such, and every day he sees increasing the number of those who, by counterfeit or imitation of his mark, seek to deceive the public, painting upon them their inferior qualities, for the genuine G. VENARD CHARTRES COFFEE. This fraud can deceive nobody after a trial, but only adds to the favorable opinion of the consumers, the very first, though unwilling victims of the counterfeiters. Nevertheless, buyers should be forewarned, and put them their guard against this practice.
BEWARE OF COUNTERFEITS.
Each package bears the [illegible]ure of G. VENARD.

HARDWARE PAPER,
CLACKAMAS MILL MAKE,

The Daily Oregonian.

TUESDAY MORNING, JULY 27, 1869.

A Political Temperance Party.

The following appears in the Corvallis *Gazette*. Appended to it is a request asking the OREGONIAN to copy

Synopsis of proceedings of the Convention held at Oak Point School House, Linn county, Oregon, July 15th, 1869. Meeting called to order by Wm. Winning, Secretary, and on motion Robert Glass, L. D., of Banner Lodge, was called to the chair.

The following Brothers were appointed on resolutions: J. V. Crawford, Wm. Winning, M. C. Morgan, N. Wright, and J. F. McCoy.

On motion Committee went into Committee of the Whole on "Political action." Bro. Winning in the chair. Several resolutions were offered in Committee and ably discussed. The Committee rose and offered as amended the following resolution:

Resolved, That in the opinion of this convention, the signs of the times fairly indicate the necessity of the organization of an Independent Political Temperance Party for the prohibition of the sale, use, manufacture and importation of intoxicating liquors.

Recess of 10 minutes. Called to order.

Resolution taken up, and after being discussed by H. N. George, Sam'l Miller, J. W. Mack, W. Carter, H. C. Phillips, F. M. Wadsworth, and the members of the Committee on Resolutions, was adopted.

On motion, the Convention then adjourned to meet at the hall of Banner Lodge, Linn county, on the 2d Friday in September, 1869, at 10 o'clock, A. M.

On motion, the several Lodges of Linn county are requested to send at least three delegates to said meeting.

Convention adjourned to meet at the hall of Banner Lodge, on the 2d Friday in September, 1869, at 10 o'clock, A. M.

ROBERT GLASS, Chairman.

WM. WINNING, Secretary.

Perhaps the present is just as good a time as the advocates of prohibition can find for organizing a political party to carry out their views. Whether they will nominate State and county tickets for next year we are not informed, but the tone of the *Gazette* would seem to indicate that such is their intention. It may be that one-tenth of the voters of Oregon would support such a movement; and this number, though entirely too small to effect anything for their own organization, might be able to decide the contest in favor of one or the other of the regular political parties.

We do not intend to deprecate this proposed action or seek to offer any advice in regard to it. The temperance organizations will adhere to their own ideas and adopt their own policy. It is their right to take their own course in politics, and after they have tried the strength of prohibition in Oregon it is probable that they will have clearer views of the actual state of public sentiment on that question. There has never been an issue of this kind in our State, and we do not undertake to say which of the two political parties has in its ranks the greater number of temperance men. Of this however we have no doubt, that if prohibition were presented as a political issue, nine-tenths of its supporters would come up from the Republican party. Few Democrats would join the movement, because it is an old habit with the members of that party to sustain the "regular nominations."

As a general rule, Democrats throughout the Union are sworn enemies of temperance legislation. These separate prohibition movements, if they have any practical effect, result in giving otherwise impossible successes to that party. The advocates of prohibition, who are certainly men of intelligence, can decide for themselves whether they can best serve the cause they are laboring for by putting political power into the hands of its most uncompromising foes.

Chinese Labor North and South.

The Albany *Democrat* takes an entirely original view of the mooted Chinese question. It says: "This Chinese labor is a great desideratum to the South. It will restore her energy, collect her wasted capital, regain her commerce, and make her States rich and populous empires." But though Chinese labor will do so much for the South, the *Democrat* holds that it will be a great curse to the North. The adroitness with which that paper attempts to maintain this opinion affords a striking proof of the flexibility of Democratic principles. According to the *Democrat*, there is "a department of labor in the South which the white man will not touch;" therefore the Chinese, when they enter this field, will not compete with the whites. But if Chinese are allowed in the North, there will necessarily be sharp competition between their labor and that of white men. This is a specimen of the special pleading to which our Democratic friends are driven to break the force of the movement inaugurated by the Southern Democracy to secure Chinese labor. There is nowhere in the world any field of labor which "white men will not touch," provided it will pay. But the *Democrat* says that the South must have cheap labor or she can produce no cotton. So, we answer, Oregon must have cheap labor or she can produce no iron, but little wheat and few woolen goods. Oregon is just as much interested in having cheap labor as any Southern State can be. It is absurd to say that Chinese labor competes with white labor in Oregon, but that no such competition can take place in the South. The distinction raised by the Albany paper is simply a device to rescue its party from the dilemma into which it is thrown by the embarrassing demand of the Southern Democracy for the introduction of large numbers of Chinese laborers.

In some respects it is very convenient to belong to a party which can advocate different sets of principles and different lines of policy in different sections of the country. We have frequently seen the Democratic party going it strong for a protective tariff in Pennsylvania and advocating free trade in other parts of the country. The course which the Albany paper advises is a stroke of policy quite similar. The necessities of its party are so urgent as to frequently demand the exercise of a lively invention to keep the party right on the "issues" of the day.

In General.

Jay Cooke has established a bank at Duluth on Lake Superior, the prospective terminus of the Northern Pacific railroad. The town has fifty houses and twenty-five more are in progress. A large number of people are in tents and temporary shanties and all are as "jolly" as Mark Tapley was in Eden.

The great Railroad Convention which is to be held at Oswego (N. Y.) is undoubtedly a movement mainly in the interest of the Northern Pacific. It is undertaken at the instance of Portland, Maine, which city has for some time evinced a lively interest in various projects for northern roads connecting the Atlantic seaboard with the Great Lakes.

The telegraph advises us that the Secretary of the Treasury has a proposition from Germany for a loan of $300,000,000 at five per cent. He thinks a loan may be secured soon at even less rates. This state of affairs may be pointed at with pride by the Republican party, under whose management the finances of the nation are being established on so solid a basis. Secretary Boutwell is making a reputation as a financial minister which is placing him ahead of all American statesmen except the great Hamilton.

We are often amused by reading elaborate arguments in the Democratic papers showing conclusively that certain things cannot occur, directly followed by fearful forecastings of the most terrible results that will ensue when they do occur. Or, to put it differently, we find Democratic editors continually asserting and proving that the white race are the master race of the world and that every inferior race that comes in competition with them are certain to go to the wall,—following their arguments on this subject with direful predictions that we shall soon be overrun and subjugated by barbarous hosts from Asia.

The laws of California award large bounties for the encouragement of industrial pursuits. Recently the State Board of Judges met in Sacramento and awarded $18,150 for mulberry plantations, $15,000 for woolen goods, $2,000 for cotton drilling, $1,000 for hops, and $360 for cocoons—about $33,000 in all. The mulberry bounties were awarded to thirteen different claimants. We believe the Legislature of Oregon has never attempted to encourage any industry whatever. On the other hand the last Legislature attempted to strike a blow at the prosperity of the State by an act to keep out Chinese laborers.

OREGON.

It appears from the *Journal* of Eugene that there is considerable activity in real estate in Lane county.

The Albany *Register* says that all persons in that section who can leave are going over to Salmon river and Yaquina to escape from the summer heat.

Prof. Anderson, who is to take charge of the Academic Department at Forest Grove arrived a short time ago. His reputation as an instructor argues well for the future of the Academy.

A Committee was appointed at Eugene by the City Council, consisting of Messrs. A. S. Patterson, A. A. Smith, E. L. Bristow, G. B. Dorris, S. Ellsworth, and C. W. Fitch, to wait upon George Francis Train and welcome him to the town.

The Corvallis *Gazette* goes off in this way about the late fire at that place: The sight is truly appalling. Not that other places have not suffered as much or more—but the severest sting is that rum, indirectly if not directly, is the cause of our loss. In the name of high heaven—of an outraged public—of the cries and tears of the widows and orphans—of the innocent prattlers yet unborn—for the sake of the already made wrecks of ruined manhood in our midst and our sons and daughters now blushing into man and womanhood, the only hope of this fair land—we beseech those who own this property not to let it longer be prostituted and disgraced by allowing a single rum mill upon it.

THE WEST.

People are prosecuted and fined at Victoria for selling venison at this time of year.

The machinery has been ordered for a six set woolen mill at San Jose, California. Another mill will be put in operation at once in Santa Clara county.

Mr. William Swinton, long connected with the New York *Times*, has accepted the Professorship of English Literature, Rhetoric and Logic in the University of California.

The *Alaska Times* says the Russian families are in great distress at Sitka; their husbands and sons or brothers are out fishing or hunting and the helpless ones are parting bit by bit with their furniture to keep body and soul together. The *Times* calls on General Davis to alleviate the distress of these unfortunate people.

The Virginia and Truckee railroad, it is now confidently anticipated, will be completed by the 1st of December, perhaps two or three weeks sooner. The monthly pay roll now amounts to about $120,000. The road-bed is nearly ready for the track. The tunnels will be completed in about six weeks. The completion of this road will be a great thing for Virginia City, and all concerned in the Comstock mines.

GENERAL NEWS ITEMS.

Mr. Motley has been for some time the guest of Mr. Charles Dickens.

Five translations of Mrs. Stowe's *Oldtown Folks* are announced in Germany.

The Cuban bond to be put upon the market before long, are payable "twelve months after date of the independence of the Republic of Cuba," and are said to be secured by real estate.

When our entire country shall be as densely populated as Massachusetts is to day, we shall number a population of 600,000,000, and when it reaches Great Britain in point of density, our population will number more than 860,000,000.

Subscription books have been opened for the stock of the Newark and New York canal, which the projectors think will be a great and highly profitable enterprise. The plan is to dig the canal from the Hudson river, near Bedloe's Island, across Bergen Neck, and thence by dredging over New York Bay, to carry the canal to New York. The cost is estimated at $6,000,000, and the profit on the enterprise is to come from the increased value it will give to property, which is estimated at not less than $13,000,000.

VARIETIES.

An emigrant train, consisting of a man, his wife and four children, all barefoot, is walking through Ohio on the way West.

The Cincinnati *Gazette* reports that an eel twenty-eight inches in diameter was taken from a pie only two and a half inches across.

An Ohio Democratic candidate declares that "the national debt is *ten thousand dollars* more than the people can ever pay in gold."

The largest salary paid to a Methodist preacher in New England is $2,500 and house rent—to the rector of Tremont Church, Boston.

The "red flag," elevated by the Parisian rioters, was a red crinoline, mounted on a broom. Five hundred thousand people flocked into the streets to see it.

The New York *Democrat* recently contained an article entitled, "A Revolution in Gas." The Albany *Journal* thinks it alluded to the late editorial change in its office.

A man in Nova Scotia—father Irish, mother German, born in Canada, naturalized in this country, in the U. S. A., by attachment a Mexican in doubt about his nationality.

There is probably a new English Encyclopedia on the *tapis*, as we find an English paper an advertisement running thus. "Required for the various departments of an encyclopedia, editors of reputation for natural history, geography, natural science, sports, and the Bible."

The Austrian War Office has decided on employing the velocipede for military purposes, and is establishing a school for the instruction of officers and privates in use. The idea is, that were the nature of the country permits it, the velocipede may be used with advantage as a substitute for a mounted orderly for bearing dispatches.

The man who asked "What becomes of all the pins?" now wants to know "What becomes of all the horse shoes?" It is said there are thousands of horse shoes dropped in London in the course of the year, but they are rarely seen. This is all the more remarkable, inasmuch as it is considered lucky to pick them up. There is a great demand for the nails by which they are fastened. The banging they have got through constant wear makes them of more value than new nails to make stubb twist gun barrels. It seems odd that the same malleability could not be given to the iron in some quicker and more simple manner than by the traffic of horses' feet.

By Overland Telegraph.

DISPATCHES TO THE OREGONIAN

DATES TO JULY 25

Financial News.

CHICAGO, July 26.—The *Tribune's* Washington special says the result of Boutwell's administration appears in a proposition from a German house in Frankfort to loan the Government one millions at 5 per cent., which the Secretary, of course is obliged to decline. He thinks we may, within a year, borrow all the money we want at five certainly 4½ per cent, and will probably recommend such a loan next winter for the purpose of paying off the 6-20's.

A private letter from a well advised source in England, expresses the opinion that a loan at 4½ per cent. could easily be negotiated within six months.

The Dent movement finds no favor among officials at Washington, and apparently little among Republicans in Mississippi.

Ex Governor Hahn, of Louisiana, arrived Saturday. He gives a cheering account of affairs in his section. The sugar, cotton and corn crops are all heavy. Cotton is believed to be safe from the worm. Social quiet is rapidly returning.

New York News.

NEW YORK, July 26.—The *Tribune* says three passengers arrived from Sacramento in six days and a half and sailed Saturday for Havre.

John Bigelow assumes the duties of chief editor of the *Times* to day. Conant continues as managing editor.

Secretary Boutwell will continue to purchase three million of bonds weekly during the month of August.

Several prominent Democrats are at Saratoga arranging a plan of campaign for the fall election. It is rumored that they will have a less conservative policy than heretofore. They accept reconstruction as an accomplished fact.

It is rumored that Grinnell is about to resign the Collectorship of New York on account of ill health and the earnest desire of his family.

Meetings of the Workingwomen's Association have been discontinued for the summer. It is generally considered that they will not be resumed. The salesroom of the Association has been closed for want of patronage.

Tennessee Affairs.

NASHVILLE, July 26.—Specials say fears are entertained of a collision in East Linn in the approaching election. The partisans of Stokes boldly avow they will prohibit the ex rebels recently unlawfully restored from voting, and are arming for that purpose.

Suit Against the Union Pacific Railroad.

CHICAGO, July 26.—A dispatch from Omaha says that James W. Davis and associate sub-contractors have brought suit in the State District Court against Oliver Ames and others contractors on the Union Pacific Railroad for $604,000, the amount due for work performed and money expended and for breach of contract on the part of the defendants. It is alleged that the claimant and his associates already have been overpaid by $5,700.

Murder in Chicago.

CHICAGO, July 25.—A man named Thomas Wilson, a former officer of the British army, brutally murdered his wife yesterday on Fourteenth street. Wilson has for years been a drunken wretch and abusive to his wife, who was a woman of uncommon personal attractions. The murder was committed when Wilson was drunk. He is in jail.

Cuban Affairs.

KEY WEST, July 26.—Admiral Huff, with flag ship and two gun boats arrived at Santiago on the 11th. Great excitement prevailed among the people, supposing the squadron had come for the purpose of bombarding the place. The Admiral exchanged correspondence with the Governor after which visits were interchanged. The Admiral made a thorough examination of the circumstances connected with the murder of Americans. The Governor stated that he could not resist the clamor of the volunteers for blood, and consented to their execution on the ground of the late Captain General Dulce's proclamation declaring filibusters pirates. Admiral Huff severely condemned their execution without trial, and made a sharp protest against it. The Governor agreed to allow prisoners to be tried in the future, but orders will be issued to Spaniards not to bring in prisoners hereafter but kill them on the spot.

BY ATLANTIC CABLE.

NEW YORK, July 26.—The *Herald's* special from Madrid says at last the Carlist outburst, so long expected, has occurred. Five hundred well drilled troops under Gen. Santiagus, who had taken the field near Canidad Real, were defeated and and dispersed by national troops commanded by General Larrabei. The battle took place in the morning. The Carlist party lost 100 killed and a number wounded. Only three officers were killed of the Government troops. Near the town of Manzanares a strong party of Carlists made a demonstration and succeeded in intercepting railroad trains and cutting telegraph wires. The latest accounts are that 4,000 Carlists arrived in the Province of La Mancha. Government troops have been sent to the scene of action. Agitation is general throughout the whole country. People are much excited over the late news. No further troubles have yet been reported, although it is feared a general rising may be expected all over Spain now that Don Carlos has crossed the frontier and opened communication with his numerous partisans.

NEW YORK, July 26.—A Duxbury, Mass., special states that the following despatch has been received over the French cable from Paris: London, July 24—A clause has been introduced in the telegraph bill protecting submarine cables landed on the shores of the United Kingdom.

At the Wednesday's Cabinet council Lord Granville, Cairns, Dr. Bell and the Irish Attorney General met to discuss the compromise measures of the Government. The opposition accepted the conditions. Afterwards the Premier stated that the Irish bill only awaits royal assent.

Granville Murray has been elected from his club by a vote of 190 to 200.

It is reported that a new cable is projected from Milford to the American continent.

OUR SAN FRANCISCO DISPATCH.

SAN FRANCISCO, June 26.—Capt. Hanna, of the police force, was arrested this P. M. for assault and battery upon officer Crohen while on duty as prison keeper at the City Hall. Yesterday afternoon about 7 o'clock, a man named Donohan, was arrested for drunkenness, and was so violent as to necessitate putting him in a dark cell. Two of his friends came to bail him out, and after Crohen had set him at liberty, it is alleged that Hanna came in and censured Crohen severely, and finally struck him a severe blow in the face.

Capt. Gould, of the ship *Optonah*, which arrived yesterday, states that while at the Falkland Islands, he saw twelve of the crew of the British ship *Blue Jacket*, which was burned while homeward bound from New Zealand to England. They had been picked up by a vessel, and had twelve boxes of gold which they saved from the burning wreck.

Col. Coey, the new Postmaster, and H. R. Linderman, Director of the Philadelphia Mint, arrived here Saturday night.

At 8:30 P. M. yesterday, a stable owned by Wm. Watts, on Columbia street, was destroyed by fire.

About 10 A. M. to day a fire occurred on Commercial street wharf, by which five tons of hay was burned.

Wm. Freeman and John Wilkins were arrested yesterday on a charge of drawing deadly weapons.

Alexander Debasich was arrested yesterday for assault on Edward Cole with intent to kill.

Carotti, an Italian, was also arrested last night for cutting a countryman on the head with a sword cane.

A lad named Liberty Smith, employed by Fay, Brooks & Backus, stove dealers, fell from a pile of stoves, on Battery street to day, and sustained severe injuries to the abdomen.

Wm. Page was arrested yesterday by the U. S. Marshal for cutting redwood trees on surveyed lands of the United States in San Mateo county.

The U. S. steamer *Dacotah*, from Callao, arrived this A. M.

Reports have been engaged at the Occidental Hotel for Admiral Farragut.

Col. E. N. Wyckoff, special agent of the Treasury Department for the Territory of Alaska, arrived in this city by the steamer *Colorado* last Saturday. He will depart for his new field of labor in a few days.

In the 12th District Court to-day in the case of F. I. Dent vs. W. A. Max, judgment was rendered in favor of plaintiff for $449 20.

SAN FRANCISCO, July 26.—The Committee of Investigation of the Industrial School, members of the Press and others made a visit to the Industrial School at 12 M. to day.

The Committee of Ways and Means took their departure for the East to-day via the California Central Pacific Railroad.

A lad named Schmitz, a native of this city and a graduate of the High School in this city, to-day received the appointment to the Naval Academy at Annapolis, Maryland, through the assistance of S. B. Axtell. This is the first appointment of the kind made from this State.

Homicide at Woodland, Cal.

WOODLAND, July 26.—An altercation took place last evening at Cave Creek Canyon between Cyrus Barnes and one Marble. After a few hard words,

Marble said he would go and get a shot gun. Barnes remarked that he would get a gun and fight it out. On Barnes returning, Marble was found in a blacksmith shop unnoticed by Barnes when passing, and Marble took deliberate aim at Barnes, shooting him through the heart and killing him instantly. Marble is in custody.

Stockton Dispatch.

STOCKTON, July 26.—A young lad named Harkness fell from a horse this forenoon and broke his arm.

Henry Dixon, the man who fell from the house on Lombardi street last Friday, died this afternoon.

A slight sprinkle of rain fell here this morning, lasting only a few minutes. The weather throughout the day has been beautiful.

New York and Liverpool Markets.

In New York to day gold opened at 136½ and closed at 136¾.

Five-twenties of 1862 12[illegible]; 1867, 120¾.

Wheat dull and unchanged.

Flour dull and nominal.

Liverpool wheat 10s 6d.

San Francisco Markets.

Flour—City brands unchanged.

Wheat—Market firm at $1 70@1 72½ for choice.

Barley—Feed, $1 10; new, $1 15.

Oats—$1 80@1 90; Oregon, $1 75.

Mining stock this A. M. generally steady.

Shipping.

Arrived—July 26th, barkentine *Occident*, 6 days from Umpqua.

Sailed July 26th, North German bark *Cape Horn*, Barrard Inlet.

NEVADA.

VIRGINIA, July 26.—Fifty kegs of powder were let off in one blast on the Truckee Railroad on Saturday. One large stone fell on the Company's boarding house and went through to the cellar, just missing the cook and leaving his furniture a wreck. A connection was made between the working parties at the opposite ends of the railroad tunnel under Fort Homestead to day. A few days will complete all the tunnel work on the road. It has been raining most of the evening, with thunder and lightning accompaniments, consequently the weather is cool and agreeable.

ELKO, July 26.—Mr. Hufford, County Recorder, returned from Cope yesterday. He reports the Argenta ledge as showing very rich rock, and also verifies the report that placer diggings have been struck near Cope, six pans of dirt having panned out 60 cents. Gold has also been found in the Argenta. Mr. O. R. Johnson, who has just returned from that district, reports the mines as undoubtedly rich. He is a practical miner and a reliable man. Six teams arrived here yesterday loaded with ore from the Argenta and California mines. It will be sent to San Francisco to be worked up. No bullion shipments to day. Weather warm and sultry. Thermometer at 100.

WM. R. SEWALL and J. B. SPRENGER

Take this method of notifying their friends, the traveling public, that they have disposed of their interest in the Western Hotel, and hereafter will continue to manage the COSMOPOLITAN, which in the future as in the past, will always maintain its reputation as the BEST and only FIRST CLASS Hotel in the city.

SEWALL & SPRENGER, Proprietors.

Portland, July 1, 1869. jy1

CORVALLIS FIRE.

CORVALLIS, OREGON, July 23, 1869.

TO HARRATT BIRD, Esq., *Adjuster Phœnix Ins. Co., Hartford*.

DEAR SIR.—Allow me to acknowledge the receipt in U. S. GOLD COIN, of the amount of my loss by the fire of the 21st inst.

The payment of a claim on the second day after the fire, is proof that the confidence placed by the people of Oregon in the business-like promptness and good faith of the Phœnix Insurance Company of Hartford, and its representatives, is well merited, and I take this opportunity of assuring you of my good will towards the Company, and wishing them the same success in the future that has, so far, attended their business in this State.

Yours truly, WILLIAM ELKINDER.

SEVENTH INDUSTRIAL EXHIBITION

OF THE

MECHANICS' INSTITUTE

OF THE

City of San Francisco

WILL BE

OPENED TO THE PUBLIC ON A. M. SEPT. 14, 1869.

THE BOARD OF MANAGERS ANNOUNCE THAT the seventh Industrial Exhibition will open as above, in the spacious Exhibition Building erected on Union Square, in the City of San Francisco and in parts will be spared to make it complete in all its details.

The Building is weather-proof, well ventilated and lighted (at night) by 1,500 gas jets; is provided with tables for exhibitors' use, and has a line of shafting 200 feet long provided with necessary pulleys and ample steam power to exhibit working machinery and covers an area of 90,000 feet.

The lines of telegraph wires will be connected in the building, where, also, will be the Postoffice and Express Companies' boxes. A fine Band will discourse music every evening and afternoon, and the visitor will find ample provision for his comfort in every particular.

The various Hotels are making extensive preparations to accommodate visitors at moderate rates during the Exhibition season; and the Board of Managers will, through an agent, extend all information to strangers seeking accommodations during their stay in this city at that period.

There is no charge to exhibitors (except ticket of admission), and exhibitors are notified that applications for space must be received before August 28, or space can not be definitely assigned. Articles intended for exhibition must be in the building by Saturday, Sept. 18, and no article can enter for competition unless in position by that time.

Rules and Regulations, Circulars and Blanks will be forwarded on application at the rooms of the Mechanics' Institute, 29 Post street, San Francisco, or by addressing J. H. GILLMORE, Corresponding Secretary, same address.

Articles from the country must be marked distinctly, "For the Seventh Industrial Exhibition, San Francisco, California. Care J. H. Gillmore, Corresponding Secretary."
